

Easy and quick to disinfect, Maximum typing comfort

Purekeys manufactures easy to disinfect keyboards and mice for use in all medical environments.

All Purekeys medical keyboards combine a completely flat top with the tactile feedback of a normal keyboard. The flat top surface is made of a high-grade silicone rubber and can be cleaned with any hospital grade disinfectant. With cleaning times of less than 5 seconds, best practice to clean between patients can be easily achieved.

ADVANTAGES:

- Flat surface that is easy to clean and disinfect between patients
- The Purekeys keyboard has a dedicated Clean Key that allows to disable input while cleaning
- Can be cleaned with all hospital grade disinfectants
- Tactile feedback of a normal keyboard
- Plug and Play compatible with all Windows – based PCs
- White colour has a fresh and clean look
